TO WHOM IT MAY CONCERN:

Dear Sir/Madam,

REF: GEOLOGIST: PAL .K. PAUER

The above named person has helped to locate water well site at Kyaani Secondary School on 20th September, 2017. He again continued supervising the drilling work up to the time we obtained water in abundance.

It is my sincere recommendation that he is a true self-motivated worker who offers his services regardless of obstacles. He mixed up well with fellow staff, school fraternity and the community members. His respect and love for his work is beyond reproach and incomparable.

Therefore, on behalf of the school, I do recommend Geologist Pal .K. Pauer for any other future water prospecting activities as I give assurance of the best from him.

Thank you.

Yours faithfully,

KIOLIRAPHAEL
