Dear Pal,

On behalf of the Rotary Club of Santa Barbara North and everyone involved with the water well at Kyaani School in Kenya, I would like to thank you for assisting with siting the well and supervising the drilling operation.

I personally want to thank you for your dedication to our projects over the years, including the Ngu Nyumu water well, which continues to produce water for that area. You have again proven that your way of searching for water is the best way, as you have helped our Rotary Club with two very good producing water wells for those less fortunate.

Hopefully by now you are back home and resting up after your trip to Kenya. I understand that you also helped site wells for the Langata Rotary Club in Nairobi, in an area some hours away from the Machakos area while you were there.

We thank you for taking time from your busy schedule here in the states to help us with these projects, and we look forward to doing even more in the future.

Best regards,

A handwritten signature in black ink that reads "Joe Lanza".
